

MOULDINGS ONE

PROFILE INDEX

ABOUT OUR MOULDINGS

Choose or match from our extensive library of mouldings arranged by shape, size, and style for which tooling already exists. With our quick machinery set-up and in-house knife grinding, you will find production times meet most schedules. Any of the mouldings throughout this catalog can be produced in a hardwood or softwood species of your choice and most can be modified for length, width, and thickness. Our panel mold and base caps can have a rabbet designed for recessed paneling or used as a wainscot cap. For all non-stock profiles, a set-up charge will be assessed for production runs less than 499 lineal feet and no set-up charge for orders exceeding 500 lineal feet.

CUSTOM MOULDINGS

If you wish to create a moulding that is not found in our collection, our workshop can produce custom tooling to precisely match sketched drawings, architectural blueprints, or existing wood samples.

IN-STOCK MOULDINGS

Mouldings One produces a wide selection of in-stock wood mouldings available for immediate delivery and pick-up. We offer the finest quality and most accurate cut moulding profiles with sharp corners, smooth facias, and robust curvatures.

Our in-stock wood mouldings are composed of true geometric forms, such as coves, cymas, ovolos, and ogees used in classical and traditional architecture. This will provide an opportunity to follow historical precedent when balancing them with proportion and scale, and will distinguish your work from the ordinary.

IN-STOCK COMBINATIONS

Select one of our in-stock combinations and achieve the look you envision. We used a variety of in-stock wood mouldings and researched historical resources to create this series of stylistically consistent millwork packages. For an expanded view of available custom packages, visit our website at www.mouldingsone.com/architectural-styles/.

FINGER-JOINTED, PRIMED & SANDED OPTION

Save on product cost and time on the job site by selecting finger-jointed or primed mouldings that are sanded and ready to paint.

VISIT US ONLINE

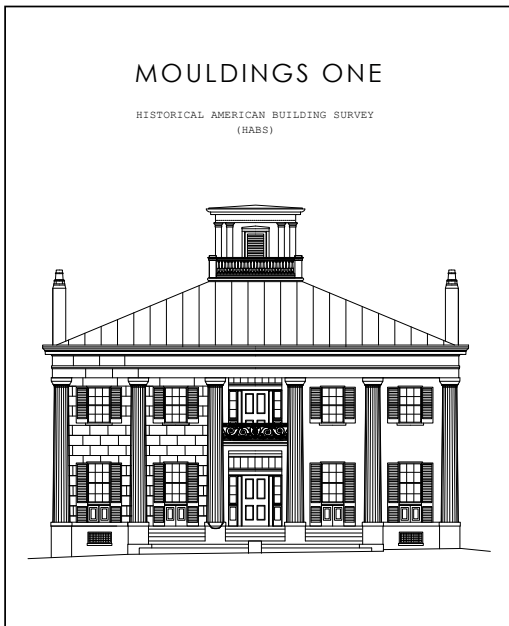

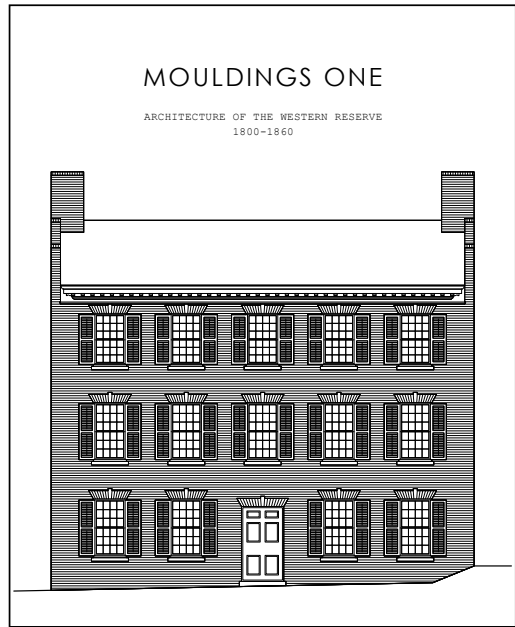

Along with our entire moulding collection arranged by shape, size, and style, and our gallery of over forty Architectural Styles, we invite you to explore our ever-growing online museum. We have transcribed thousands of historical mouldings throughout the United States from a variety of sources. We believe drawing attention to these examples and making them available to a larger audience, there will be a growth in public awareness, appreciation, and preservation of our ever-disappearing American architectural legacy. Search history and observe the moulding details, blueprints, and photos of our past. Our mission is to showcase and share the documentation we have gathered for others to embrace as an educational tool.

DOWNLOAD MOULDING PROFILES

Download our complete line of moulding profiles in DWG or PDF format from our website in full scale at MouldingsOne.com.

PREFERRED PRODUCTS

View our preferred manufacturer brands on our website as we offer a variety of quality building products to assist you and your team. Should you have additional questions on any of the products, please contact a Mouldings One representative.

OUR PUBLICATIONS AVAILABLE ONLINE

Mouldings One offers, for free and downloadable, seven books on our website for builders, craftsmen, and enthusiasts to explore and learn about mouldings, historic architectural styles, and how to use them.

- Volume 1 is our Catalogue of Profile Designs arranged and categorized by shape and style. All drawings are accurate, full-scale cross-sections.
- Volume 2, Book of Styles and Historic Woodwork shows suggested groupings of our moulding profiles relating to over 40 architectural styles.
- Volumes 3-7 are a compilation of the documentation and transcribing of moulding profiles and assemblies shown in historical millwork catalogs, building manuals, Historic American Building Survey (HABS), the White Pine Series of Architectural Monographs, and an entire world of other sources.
