## Mid-Century Casing

1009 [3/4 x 2-1/4]

One of the core philosophies inherent to Mid-Century Modern design is balance and harmony through minimalist millwork features. As such, casing very often matched baseboards in design and size.

## Mid-Century Modern Baseboard

2004 [5/8 x 3-1/2]

Mid-Century Modern homes feature clean, unadorned baseboards, with gentle curves to provide a simple accent rather than an eye-catching statement.
